Dear Chris,

My name is Jacks Pastuer and I am a constituent advocate with Senator Hickenlooper's office. I received your request for assistance. I wanted to reach out and clarify how our office can assist? Furthermore, which federal agency are you struggling with?

Respectfully,

Jacks Pastuer

From what I understand Hickenlooper is a State senator who works with issues regarding police misconduct and prison confinement issues. What I have experienced has been a bastardization of the judicial process, the citizen right to a fair trial, and direct violations of constitutional law by law enforcement personnel. During these travails I also faced torture at a government run facility. This act of torture not only violates the international human rights law known as the Nelson Mandela Rules but also state law that was adopted in 2017 which uses the Nelson Mandela Rules as its bases.

These incidents occurred over a series of several years, have been consistent, and the harassment by law enforcement persistent. I have been pursuing justice in regards to these incidents from the first occurrence of law enforcement misconduct but have been continuously impeded in my search for vindication. Most recently I had a uniformed police officer threaten false arrest for attempting to report her for criminal conduct. This is a direct violation of the Fourth Amendment and also constitutes obstruction of justice.

Though this most recent occurred within the District 1 Denver police station around 14 February 2025 there has been what seems to be complete inaction by police to the event. This seeming inaction has continued even though I notified the Denver Police IA which has an active case number regarding the incident. Based on the of lack of professionalism and urgency I experienced with my interactions with the Denver Police Department I then began educating myself in law. After doing research I learned more about the severity of the violations I experienced previously at the hands of the Jefferson County Sheriff's Department and how to better define the violations of law by the Denver police officer.

I am seeking prosecution against the Denver officer for violation of my unconditional constitutional rights as a citizen and for her criminal conduct when serving as an officer of the State. I am also seeking prosecution of the Jefferson County Sheriff's Department for violations of my Fourteenth Amendment rights to due process of law and for the crime against humanity of torture. I have filed formal reports regarding these incidents to the Colorado Attorney General, the Denver Police Department, Jefferson County Sheriff Department, the Colorado Commission on Judicial Discipline, the Colorado

Supreme Court's Office of the Presiding Disciplinary Judge, the FBI, the International Criminal Court in the Hague, Netherlands (as intentional human rights laws were broken), etc.

I live under the continuous threat of law enforcement and further misconduct. I am seeking prosecution, punishment, and remediation for these atrocious acts by law enforcement. Further I am looking to see that the proper checks and balances are placed upon law enforcement within the State of Colorado as there seem to be no effective means for oversight and punishment of law enforcement when misconduct occurs. This includes the lack of such an office within the civil rights division that Colorado currently has.

As further note, there is ample and sufficient evidence to support all of these claims. If this situation is not dealt with adequately I am considering moving international after approaching an embassy seeking asylum for persecution by law enforcement within the State of Colorado. I have also served in the Peace Corps, Americorps, have a master's degree from the Josef Korbel School of International Studies among other things.

As I have much to discuss regarding all these and other incidents, I look forward to hearing back from you.

Hi Jacks,

It has been about two weeks since I sent a response to your original message and I have as yet to hear back from Senator Hickenlooper's office. As previously mentioned, I am seeking criminal prosecution for unlawful policing practices and outright corruption within law enforcement in the State of Colorado. The charges I have levied against these individuals and organizations is wholly truthful and demands that the appropriate action be taken to remedy the egregious breaches of State and Federal constitutional law I have experienced.

These messages serve as evidence that I have contacted Senator Hickenlooper's office multiple times regarding the incidence of torture and the rampant misconduct I have experienced throughout the system of law enforcement in Colorado. I do not intend to seek a civil suit against law enforcement until criminal proceedings are being undertaken against those who deserve extreme punishment for extraordinary crimes.

Non response or non action regarding these incidences admits complacency and that the corruption is clear and evident at the highest levels of Colorado government. As previously mentioned I have reached out to numerous other organizations at various levels of local, state, federal, and international levels of government. If necessary I will move internationally through the use of asylum based on the persecution I have faced within Colorado. I will then use all necessary means to expose the iniquity, prejudice, and illegitimacy of law enforcement within Colorado and the United States of America.

I look forward to having serious discussions on how levy formal criminal charges against these criminals who wear the mask of law enforcement officers.

Chris Hoffman

Dear Chris,

Unfortunately, our office is unable to assist with judicial matters. I have attached some resources which may be able to assist.

https://www.coloradolegalservices.org/

https://coag.gov/

https://www.aclu-co.org/

Respectfully,

Jacks Pastuer

First, I would like to state plainly that I disagree completely that these matters fall outside the scope of affairs that Senator Hickenlooper's office deals with. Within the general topic of your message section on the contact page for Senator Hickenlooper's office the judiciary is directly mentioned as well as ethics reform, and Homeland security issues. My concerns can be explained to include all of these issues.

This is a situation where law enforcement personnel have wantonly and knowingly violated state and federal laws. Law enforcement personnel are tasked with the duty to serve and protect the public by enforcing local, state, and federal laws. While performing their duties officers are sworn to uphold ethical standards, demonstrating integrity, honesty, and fairness, even when off duty. These circumstances clearly demonstrate multiple violations of local, state, and/or federal laws by local police officers. Any violation of the law by law enforcement personnel is a violation of ethical standards.

I would also consider this to be a Homeland security issue as the evidence (which is ample and sufficient) clearly shows corruption and complacency within law enforcement departments in the United States. Throughout history, the spread of knowledge regarding open corruption within law enforcement systems has created turmoil and unrest. I have a uniformed officer on tape from District 5 station admitting to cronyism throughout the Denver Police Department. This information alone demonstrates blatant misconduct which violates ethical standards and calls into question the legitimacy of the entirety of the judicial system.

Additionally, I would like to ask why the judiciary is included in the contacts section if topics concerning the judiciary are not dealt with by the office?

Also, for informational purposes, I have already contacted and submitted formal complaints with the Colorado Commission on Judicial Discipline and the Colorado Attorney General's Office. I have also submitted complaints with the Federal Judiciary's civil rights division and the International Criminal Court in the Hague, Netherlands, as the conduct of the Jefferson County Sheriff's Department constitutes a crime against humanity as defined by international law.

As further note, I'm keeping record of these and all other conversations I've had regarding these incidents to prove sufficient evidence that all offices and organizations contacted were made fully aware as to the egregiousness of the conduct of all those involved. If necessary, I intend to move international through the use of asylum seeking for persecution by law enforcement within Colorado and the United States of America.

I look forward to hearing back from you,

Chris Hoffman
